***Pt Navigator/Social Worker Job Summary-** The Patient Navigator/Social Worker will work with patients who seek care in the emergency department to link them to primary care providers and address barriers to accessing primary care in order for patients to receive the appropriate level of care, improve management of chronic diseases, and/or address underlying health issues. The goals of this work include improving the health of the individual and reducing preventable emergency department visits and hospital admissions.

Applications for per diem employment for any position are always accepted.

If you have questions or concerns about position postings that appear on the posting, please contact Human Resources at 716-951-7073.
